A BIT CONFUSED?!

Do you know what you are looking for but just can't find it? Do you have a vague idea of what you want but don't know where to find the answer? Starting back to school can be confusing whether this is the first day of your first semester or the first day of your fourth semester. REMEMBER- You are not the first person to feel this way nor will you be the last. Progress sometimes does start with confusion. A good way to eliminate some of your questions is to make a list of things you need to know or want to find out. Then take your list to Frame Office. The people at Frame are friendly and willing to help. If they don't know the answer, they will tell you how or where to find the answer. The hours for the Frame Administration Office are:

Mon.-Thurs. - 8 am to 7 pm

Dear Venango Campus Student,

First of all, we would all like to extend a big welcome to each of you, new and returning students alike.

Here at "The Campus", student involvement is critical to developing and maintaining an atmosphere of quality, both educationally and socially. Each and every student is important in the role of running our campus. This is why we want to make you aware of just what you can do to make a difference.

Our Student Senate is comprised of Venango Campus students, elected by their peers. Several openings exist on the Senate. You, as a Venango Campus student, carrying a minimum of six credit hours, are invited to get involved and run for this office. The Senate is just one of the methods available to us, as students, in voicing student opinion on vital issues.

Another student voice evolves from the many different clubs here on campus. These clubs cover many different interests. If you cannot find a particular area you are interested in, please feel free to start a new club. Others may have the same interest or need. An example of this is our own ALO (Adult Learners Organization). We are here for all students to participate in and exchange ideas. Sometimes we can help just to bridge the gap which may be created by going back to school or the transition from high school to college. A lot of students have met classmates at various clubs and then formed study groups to help each other learn material for tests, etc. Study groups can really make a difference in your grades. Try them for yourself and see.

The student activity budget is partially funded by your student activity fee. The clubs are funded by the student activity budget. It's your money, so, use it and enjoy it. Voice your opinion through club membership, Student Senate membership, or both. Remember, student voices can create a majority, and --- majority rules. Be a part of that majority.

Venango Campus needs your help and involvement. After checking the yellow interest sheet from your registration packet, remember to check the Club board in Frame Hall and the "Bulletin" for new information and updates on club and Senate activities.

See you at the campus.

BE SURE TO VOTE FOR STUDENT SENATE AND HOMECOMING QUEEN!

WELCOME!

Say a Fine Howdy Do to Dr. Barbara Reagle who is the new Director of Student Development on Venango Campus. A Kentucky native, Dr. Reagle is basically a Dean of Students' positions and is responsible for coordinating the student services on campus. She is looking forward to meeting with students to listen to their concerns and suggestions about Venango Campus. Dr. Reagle welcomes student input and urges you not to be afraid to "chew the fat" with her a bit. Her office is located in Room 212 of Montgomery Hall. One of her goals is that students truly have fun and enjoy being a student by becoming INVOLVED in and outside the classroom. She lives in Titusville with her family: Husband, John and three sons--Jason, age 16; Joshua, age 13; and their new addition, Jonah Breese Reagle, age 15 months! Dr. Reagle enjoys all types of sports. She states that she is NOT a side-liner. She is an active participant and is always anxious to try new things. We look forward to having a representative for the student voice, and we hope that Dr. Reagle enjoys her position here. Welcome to the Venango Campus family.

YEARLY PLANS

The **PSYCHOLOGY CLUB** will have its first meeting on Thurs., Sept. 13 at 12:30 pm in Rhoades Center. They will be discussing meeting times and dates for this semester and plans for the year. The club is for students interested in the field of Psychology. You do not have to be a Psychology major to join. There are no membership dues. Come and join the meeting and find out what the club has been doing and what it will be doing. If you cannot attend the meeting but are interested in joining the club, please contact Dr. Haynes in Room 223 of Montgomery Hall.

LIBRARY PERSONNEL CHANGES

If you were wondering who the (other) pleasant gentleman is at the Suhr Library, he is Gaylord Robb. Mr. Robb is assuming the position of Assistant Librarian. He graduated in the Fall of 1989 from Clarion with a Masters in Library Science. Stop in and say "Hello" to Mr. Robb.

Rich Snow will still be the knowledgeable and helpful gentleman he always was, but now he has been promoted and will be performing his duties as Head Librarian. Thanks for all your help in the past (especially with the reference material in Music!).

We bid a sad "Goodbye" to Libby Williams who has chosen to retire. With the energy that Mrs. Williams' has I'm sure her life will be anything but dull. We wish her all the best!

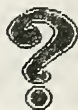

STUDENT SENATE

To date we have five candidates for Student Senate. They are:

Jon Schena - Freshman
Jane Horner - Freshman
Terri Brumbaugh -

WHO IS THIS MAN?

Answer in next week's BULLETIN

IMPORTANT!

That wasn't thunder you heard in Frame Hall—it was Mr. Adelson "commenting" on the fact that students had parked in the faculty parking area. Oh, and have you been "blessed" with a yellow WARNING sticker? To avoid these situations, perhaps you should pay close attention to the PARKING REGULATIONS listed here:

1. Students may park in Lot W and Lot Y marked "Student Parking."
 2. DO NOT back into parking spaces.
 3. All vehicles must be registered and issued a parking permit. As soon as the permits arrive we will let you know where you can pick up your permit, what information you need to get it, and how much they are.
 4. Permits are transferable to other vehicles owned by the student.
 5. Regulations are in effect until 6:00 pm each day.
- If you still have questions, please refer to your Calendar/Directory.

☺People may fail many times, but they become failures only when they begin to blame someone else. ☺

ANSWER TO LAST WEEK'S PAGE 3 QUESTION-MR. ADELSON's adviser number is #005. In his opinion this fact makes him two better than James Bond.

SAFE vs. SORRY

Now that school has started again it's even more important to keep traffic safety in mind. Students of all ages will be traveling to school by bus, on bicycles, walking, or by car. We should be alert for sudden stops by vehicles or for children darting into traffic. Don't assume which way a child is going to go. Stop when you have any doubts, don't simply swerve around them. There may be more than one child headed across the street. Allow yourself extra driving time both in the morning and in the afternoon to compensate for getting behind a bus load of facial expressions known as children. Parents should teach children to obey traffic rules, signals, and markings whether they are passengers or pedestrians. For your own protection when driving or riding in a vehicle, wear your seat belt.

ADULT LEARNER CONSORTIUM

The Ninth Annual Adult Learner Consortium will be held October 5, 6, and 7 at the Holiday Inn in Lockhaven, PA. Anyone interested in attending should contact Shirley Rice, President of ALO. The deadline for registration is Thursday, September 20. The room rates are: \$35.00 for one person plus a \$5.00 charge for each additional person per room.

ISN'T IT ODD that we can burn the American flag anywhere, but you'll be arrested for burning mere trash in many places!

X + Y = ????

Has solving simple equations simply given you a headache? Have we got a program for you? The tutoring service is open for business with FOUR (count 'em FOUR) Math tutors. Best of all it's FREE and has no calories. We allow equal time for other subjects and we have three convenient locations to serve you: Montgomery Hall - Rooms 210, 209, and 207. Business hours are posted outside Room 209.

CLEP INFO

A CLEP exam is scheduled for Friday, September 21 at 9:00 am in Room 113 of Montgomery Hall. The College-Level Examination Program is a series of examinations, each 90 minutes long, that allows you to show your knowledge in a wide range of subjects. You can choose from 5 General Examinations and 30 specific Subject Examinations. Applications for the Clep Exams are available in Frame Hall and outside Room 211 in Montgomery Hall. A check or money order in the amount of \$38 for each test should be made payable to the College-Level Examination Program. ROSH HASHANAH

Sundown Wed., Sept. 19 marks the beginning of the New Year for our Jewish friends. During the first 26 hours they are required to fast--without even having water. For a period of ten days each person is to ask the Lord, and each person he/she has wronged, for forgiveness and make a promise to change. The ram's horn was used to call the people together to pray for forgiveness.

WHAT ON EARTH CAN WE DO?

Issues, Activities and Concerns about the Environment will be addressed at a workshop to be held Saturday, September 29 from 8:30 am to 4 pm. at Venango Campus. The Commonwealth of Pennsylvania requires all colleges to report the statistics of criminal happenings and the security policies of the campus. The following report is in response to the requirements of the College and University Security Information Act. During the 1986-1989 period there were three criminal offenses reported on the campus: (1986-87) one disorderly conduct, (1987-88) one theft, and (1988-89) one attempted break-in. This represents a yearly overall crime rate of 0.002 (one crime a year per approximately 503 full-time equivalent students and employees.) Venango Campus had 786 undergraduate students enrolled in the fall of 1988. There are no graduate programs on the campus. There were approximately 65 university employees with full or part-time assignments on the Venango Campus. The Dean's Office, located in Frame Hall, is responsible for campus security. A bonded security service is contracted annually to conduct random patrols of the campus during the night hours. The campus maintains a close working relationship with the Oil City Police Department and the Clarion University Department of Public Safety. Faculty have access to their offices, laboratories, and the buildings thereof. The director of student activities also has access to the Student Union. The library staff has access to the library building and the offices. The dean of the School of Nursing and her secretaries have access to all of the rooms in Montgomery Hall. Total access is restricted to the employees of the cleaning company, the security guards, the dean, the dean's assistant, the two main office secretaries, and the two maintenance men. Students are given access to facilities with the presence of a security guard, a faculty member or a student senator. Guests of students are not given access to facilities when accompanied by the student. Outside agencies are occasionally allowed to use a campus facility with the formal prior approval of the dean. All instances of criminal actions are reported to the dean in Frame Hall. The dean reports all instances of criminal actions to the Oil City Police and the Clarion University Department of Public Safety. Alcohol is not allowed on campus. Possession, use, and sale of illegal drugs will be prosecuted. Weapons are not allowed on campus. The student newspaper is used to inform the campus community about security matters. There is no student housing on campus, so there are no student housing policies.

The MICRO-LAB in Room 216 of Frame Hall is reserved for classroom training during the following times and is NOT AVAILABLE FOR INDIVIDUAL USE:

Take the first step by attending "The Pathological Consequences of Smoking" Seminar by Dr. Will Fee on Wed., Oct. 24 at 7 pm in Rhoades Auditorium. Dr. Fee will be showing graphic pathology slides to incite your motivation to kick the habit. Questions will be fielded from the audience on any stop-smoking-technique or experience. THE SOUND OF A DIFFERENT DRUMMER

Are you marching
to everyone else's
drummer? Are you
following the crowd
just to "fit in"? In
recent studies exam cheating
incidents reached as high as
30%! Reasons ranging from
peer pressure to just plain
lack of motivation have been
blamed. Perhaps some of the
same people who cheat in
their college work are the
same people who cheated
their way through high school.
Cheating is a situation that has
negative effects not only on
the one being dishonest. In
defense of an appropriate
grade, students who register
complaints of dishonesty have
feelings of resentment, not
only because of the cheating
incident but because of being
put in an uncomfortable
situation of "ratting" on a
fellow student. In an
unresolved situation the
teacher may lose faith in the
student and become more
stringent with the other
students. Cheating in any
form is only prolonging the
inevitable. Once you get into
the real world no one is going
to "give you all the answers."
There is too much at stake!!
Don't be influenced by
students who are just going
through the motions of life.
Now is the time to set your
goals and take charge of your
future. Now is the time to
march to a different drummer!!

A CUP OF "JOE"
SOME FACTS
ABOUT COFFEE
YOU SHOULD KNOW

An MIT research scientist says to minimize caffeine but maximize alertness, drink a cup of coffee early in the morning. That's not too surprising, but what comes next might be. Caffeine's effect lasts for hours. Drinking more at break won't make you more alert, but could make you nervous. Very small amounts of caffeine are best. Another cup often helps in the late afternoon. Physiological psychologists say creativity peaks during moderate states and falls off with too much or too little tension. So if you're doing creative work, stick to decaffeinated coffee. Caffeine appears to be good for maintaining attention, but seems to decrease performance on creative tasks in many people.

We repeat, Doris Krepp will be in the Frame Computer Lab to assist you from 1-2:00 pm every Tuesday and Thursday afternoon. On a sadder note (to us), Don Kellner is no longer one of our tutors. Happily (for him) he got another job. Our free service will still be here, but we will be short-staffed for a while. Good Luck, Don. We will update you as more details are received. A BIG "HELLO" TO THE STUDENTS AT WEST PENN FROM VENANGO CAMPUS

PITTSBURGH CAMPUS NEWS

The Clarion University of PA BSN Completion Program of Pittsburgh is located at the West Penn Hospital School of Nursing in the Bloomfield section of Pittsburgh. The program began it's third year in August, 1990 with classes being offered at the site during Summer, Fall, and Spring semesters. The first class of sixteen students from the Pittsburgh program graduated in May, 1990. At the present time one hundred twenty-four BSN students are taking classes this semester with thirty-five students in the senior class anticipating graduating in May, 1991. The student population of this program is quite diverse in regards to age, educational background, present area of specialty, agency of employment and future career goals of the students. This diversity enhances the personal growth and college experience of each student attending the program. The Pittsburgh and Venango nursing faculty participated in the establishment of a chapter of Sigma Theta Tau, an international nursing honor fraternity. The MuXi Chapter of Clarion University of PA was installed in May, 1990. A total of twenty-four Pittsburgh BSN students academically qualified for membership of the Chapter and were inducted at the installation. The faculty and students of the Pittsburgh site would like to formally recognize the accomplishment of our students and share this information with all of you. Recently, Mary Ann Staso, a senior currently working in the Burn Unit at West Penn Hospital, published a research article entitled, "Experience with Omiderm-A New Burn Dressing," to be published in the November-December 1990 issue of *Journal of Burn Care and Rehabilitation*. Mary Ann became involved in this study during her clinical experience in Nursing 462: Chronic Care and has had an opportunity to present these findings at various conferences over the last few months. Our hats are off to Mary Ann!

Pre-registration for the Spring, 1991 semester will be as follows:

Seniors:	October 24, 1990 - 8 am to 4 pm
Juniors/Part-time:	November 1, 1990 - 8 am to 4 pm

Students MUST see their advisers prior to their pre-registration date to fill out their forms.

WORKSHOP REVIEW

On Saturday, September 29 I attended the "What on Earth Can We Do?" workshop here on campus. Of all the important information we absorbed that day, I felt the following words left the biggest impact on me:

WORDS OF THE GREAT SPIRIT

Look all around you my daughters and sons, at the insects, animals, plants and trees of the forests and fields; at the fishes and the waters; at the birds and the air, and know that they do not need you to survive, rather it is you who need them! Therefore, treat all beings, all things which I have made for MY purpose, gently with love and compassion; respect them as if they were yourself. Only then can you be free, for truly, you are all MY children.

Published in Celebration of
Earth Day 1990, April 22nd

The sad reflection on those words is that technology has now changed all that. It's to the point where we not only need them, they now are in great need of us.

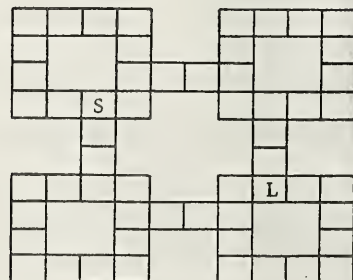

'Just Fours' Word Game

Here's a break-time puzzler you won't need a dictionary to solve. Just fill in the

diagram with the words from the list. (We've given you two letters so you can finish in time.)

He can be analytical if he has a good enough reason, but he doesn't have time for too much nonsense. Am I close, Randy? Let me know. --Editor

THINKING OF QUITTING SMOKING?

Take the first step by attending "The Pathological Consequences of Smoking" Seminar by Dr. Will Fee on Wed., Oct. 24 at 7 pm in Rhoades Auditorium. Dr. Fee will be showing graphic pathology slides to incite your motivation to kick the habit. Questions will be fielded from the audience on any stop-smoking-technique or experience. If you have a special person, family member, etc. in your life that smokes--encourage them to join you. If you already know that you want to quit and are considering "taking action", drop your name, address, and phone number to Dr. Koie in Room 204 of Montgomery Hall. If enough people are committed to end smoking--a stop smoking class will be coordinated.

DO YOU EVER WONDER.....?

Picture this--When you get up in the morning you use a wake-up aroma soap in the shower, you wash your hair with a shampoo that smells like a meadow or a coconut grove, you apply a fresh-scent deodorant, you brush your teeth with kiss attracting toothpaste, you dowse yourself with a designer perfume or splash yourself with Paul Bunyan liquid wildlife cologne, and then.....you light up a cigarette! Forgive me, but did I miss something or did you just waste a great deal of time and money? To me you still smell like a dead ashtray. Well, maybe you have been thinking about quitting smoking (again). Why not take the first step by attending "The Pathological Consequences of Smoking" Seminar by Dr. Will Fee on Wed., Oct. 24 at 7 pm in Rhoades Auditorium? Dr. Fee will be showing graphic pathology slides to incite your motivation to kick the habit. Questions will be fielded from the audience on any stop-smoking-technique or experience. The VENANGO CAMPUS STUDENT SENATE and PSYCHOLOGY CLUB invite all of the students who are dying to shed their frustrations, to come out and have a howling good time. This is a perfect way for you to be yourself and to be part of the "maddening crowd!" So, dust off your costumes and hats, put on your best outfits and come where the wierdest and funniest get together for one fun-filled night.

Music and refreshments will be provided. Forget about classes, books, studying, and professors, and SHOW YOUR SPIRIT---JOIN IN THE FUN!!!!

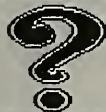

Because Egyptians believe black cats are sacred they preserved them as mummies. Thousands of mummified bodies of black cats were found in cemeteries, along with mummified mice to accompany them into the next world! Although we have been told it is bad luck if a black cat crosses our path, English wives would disagree. They keep them in their homes to insure the safety of their husbands at sea!

WHAT'S ALL THE "RACQUET"?

It's a mystery to me!!! I suggest a J & B rematch to determine the winner. As an incentive, I suggest we auction off the loser's racquet--how does that idea hit the wall?

It seems as though someone was so "zapped" up they forgot to return a copy of "ZAPP" to the library. This copy was an "interlibrary loan." If anyone sees on has this particular copy of "ZAPP", try to tear yourself away from it and return it to the library IMMEDIATELY!!!!!!!

THE AMISH: MAKING TRADITIONAL WISDOM FUNCTIONAL

On Wed., Nov. 7 at 7 pm in Rhoades Auditorium, Dr. John Hostetler, Author and Professor of Sociology and Anthropology at Elizabethtown College will discuss Amish traditions and secrets of their cultural survival, and demonstrate how they are no relics of a bygone era but have simply chosen a different form of modernity. All students, faculty, administrators, and staff of Venango Campus, as well as the general public, are welcome and encouraged to attend. Because seating is limited, it is suggested that you arrive early. Admission is free.

STAY COOL DUDE--Only 43 days till FINALS!!!!!!

Are you frazzled to the bone? Has studying about made you crazy? Do you have to decide whether to take those fifteen minutes to study or go ahead and do the moldy dishes and drop a letter grade? Has the trip to the ballgame suddenly become necessary therapy? When your husband, wife, etc. want to talk to you, are you careful to let them know that they cannot ask you questions or anything that requires more than the nod of your head? (You can't afford to break concentration by giving an intelligent VERBAL response.) Is sleep something that you only fantasize about now-a-days? Any of these things sound familiar? I'm sure they do, and I'm sure we all probably start out the semester like we start out a diet--determined and positive. We have our new text books, pencils, tape recorders, fancy notebooks, etc. merging with an ardent desire to learn and with high expectations to succeed. Maybe we can pull some answers out of this info. We plan our class schedules the prior semester knowing only the name of the class and a brief description of that class. Then--we sit back and relax--nurturing that positive attitude and anxious to absorb new knowledge the next semester. When we actually get to those classes we had scheduled we may find that we have tons of homework, or papers to write, or both, or we just aren't grasping this "crap", making us wonder why we need this course. After all, we'll never use it again. Get the picture? The negative attitude, fostered by insecurities and fear of failure, starts to take over. What we need to think about is the planning process. Instead of planning your life style around just your initial class schedule, wait till you come to classes and know what is expected of you. If a

class proves too demanding, take advantage of DROP/ADD. Then tailor your class schedule as much as possible around your personal life so the two mesh, not clash. There won't be any suggestion workable for everyone or a sure solution for anyone, but too many of us are stretched out to the end of our emotional elastic and anything is worth a try. After all, we ARE masters of our own destiny and appropriate planning will enable us to develop a more positive attitude toward our future. -E. Graham, Editor

PITTSBURGH PATTER

Students at the Pittsburgh Campus of Clarion are experiencing many interesting and varied visits to support groups in the local area.

These visits are in conjunction with the acute nursing topic of situational, transitional, and socio-cultural crises. Students are gaining knowledge about teenage pregnancy centers, the school for the blind, divorced or single parent groups, the aids task force, and a cult awareness group to name a few. This last one, appropriately, will be discussed on October 31st—HAPPY HALLOWEEN!!!!

**TRICK
OR
TREAT**

Since many of the students have been practicing RNs for several years, there is a lot of sharing of experiences, as input into the subject matter of intervention, no matter which crises situation is being discussed. This enables us, as public health care workers, to remain non-judgemental and become more supportive in our everyday practice.

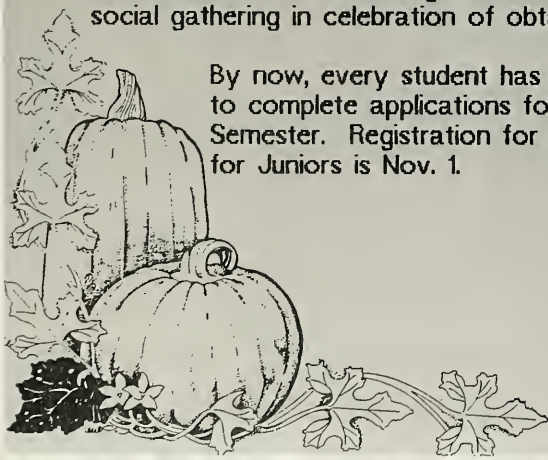

The Senior Class showed much support and enthusiasm of its Sigma Theta Tau members by carpooling to Grove City to attend the dinner before the October 23rd meeting. Many Sigma Theta Tau members have chosen to volunteer to be on several committees to show active support of this organization.

The Senior Class is sponsoring a drive for the homeless. The committee is headed by Nancy Falvo and Willis Paul. Everyone can do their part by donating new (or used) items such as blankets, coats, sleeping bags, gloves, hats, boots, shoes, long underwear, sweaters, and sweatshirts. They are also accepting any monetary donation. Items should be brought to Room 330 by November 7th. The need for this intervention was discussed in class and made even more apparent by the recent fire in Homestead that damaged the soup kitchen which fed up to 1,000 people a day.

A graduation outing is being planned for the month of May. A dinner cruise on the Majestic is one possibility in the works. The Senior Class has an account set aside for this event and is looking forward to it eagerly. Hopefully, all will attend this social gathering in celebration of obtaining their BSN degrees.

By now, every student has met with their assigned advisors to complete applications for courses for the 1991 Spring Semester. Registration for Seniors was Oct. 24. Registration for Juniors is Nov. 1.

CELEBRATE

Looking for something meaningful to do with your life? Are you concerned about the quality of the environment which supports your life? If your answer is "yes" to both questions, YOU are EXACTLY the person for whom we are looking! Last year the Venango Campus played host to a variety of speakers and workshops in honor of our Earth on Earth Day. This year we plan to have an even bigger and better Earth Day celebration. We do need your ACTIVE help in putting this show on. Our first organizational meeting will be Mon., Nov. 5 at 4 pm in the Frame Building Conference Room. We can address almost any environmental topic, such as hazardous and nuclear waste dumps in Northwestern Pennsylvania, sustainable forestry, the nutritional status of fast foods, etc. To set up an actual event, we'll need people who can be in charge of fund raising, advertising, speakers, workshops, facility, and exhibits. We're looking for your ideas, talents, footwork, and sense of fun. For more information, contact Dr. Martha Ritter, or Nik Swoboda who is a student at the Oil City High School.

\$TUDENT SUCCESS SERIES

Have you always thought about being successful and didn't know quite how to go about it? Well, we have some of the answers for you--plus a free lunch! On Tues., Nov. 6 at 12:30 pm in Rhoades Meeting Room, Dr. Sharon Morrison will conduct a mini-seminar on Self-Esteem as an integral part of being successful in your life, finances, and career. This is the first in a three-part series on success. On Tues., Nov. 13, Terry Duespohl's seminar topic is, "What Do You Want To Be When You Grow Up"? His focus will be on the various career opportunities available. Jean Rankin will have some suggestions on "How To Survive Finals" at the Tues., Nov. 27th seminar. The sign up sheet for this series is at the Rhoades Desk.

Seasons change. The aroma of Autumn is refreshing, almost sensuous, and her playful winds tease us with previews of Winter, giving our cheeks a healthy glow. We look forward to the holidays with family and friends. We rake leaves into mounds for laughing children to challenge. We prepare our grocery lists for Thanksgiving and Christmas dinners. We dig the snow shovel out of the shed after the first snow. And, oh, all the wonderful things we can create with those delicate flakes!--Snow huts, Angels, Snow balls, Snow sculptures - like that one over there! No. Wait. This isn't a snow sculpture you see in the alley by the trash--this is your brother or sister, a fellow human being whose dignity, for reasons you do not know, has evolved into a struggle for survival and whose countenance reflects despair. This is the HOMELESS! One day is like all the rest, except maybe a little colder. One meal is like all the rest, except maybe a little more moldy. One cardboard box is like all the rest, except maybe it rained last night. It has been said, "There but for the grace of God go I!" Support the Food/Clothing Drives for the HOMELESS.

ARE THERE ANY HOMELESS IN VENANGO COUNTY?

Ask anyone on the street and they would answer "definitely not!" The question being "are there any homeless in Venango County?" If you answered none, you are not alone in your thinking. However, last year in Venango County the Office of Economic Opportunity provided case management and housing assistance to 600 people. While there are no people sleeping on grates, there are people with no permanent night time residence to call "home." This means children don't get registered in school and don't always have a bed to sleep in, or food to eat. Venango County has a high rate of unemployment and has been hard hit. These are proud people, many of whom have never needed assistance before. It could be any of us, a friend, a relative, or a neighbor. Awareness that the problem exists is the first step to a solution. Food, clothing, and shelter are necessities that not everyone is privileged to have, just ask any of the 600 people helped last year.

Assistant Deputy Director, OEO

### THE STATE COAT OF ARMS

The Pennsylvania coat of arms was seldom used until after the Declaration of Independence when the State coat of arms appeared on the state paper money issued in 1777. In 1778, Caleb Lowmes of Philadelphia prepared a coat of arms, heraldic in design, with the shield and crest similar to the shield and crest of the Seal of the State of Pennsylvania; the supporters for the shield and crest were two black horses, harnessed for drawing a vehicle, rearing on their hind legs, and facing each other on either side of the shield. Behind each horse was a stalk of corn; below the shield a cornstalk and an olive branch were crossed; and across the base of the coat of arms was looped a streamer bearing the State's motto, "Virtue, Liberty, and Independence." In 1874, the General Assembly approved a commission to prescribe one official coat of arms for the State of Pennsylvania. In 1875, this commission reported to the General Assembly the Coat of Arms with the heraldic design.

## PITTSBURGH PATTERN

Grove City was the place to be Tues., Oct. 23. The Mu Xi Chapter of Sigma Theta Tau held its general membership meeting at the Grove City Country Club. Before the meeting, members were served a very delightful dinner and shared collegiate camaraderie with students from Venango Campus. The exchange of experiences and academic opportunities proved quite different between the two geographical areas. President, Pam Lawrence of Mu Xi chapter called the meeting to order and presented Dean Duespohl with a laminated, framed certificate of the chapter's charter. Several interesting topics were discussed at the meeting: The National Regional Meeting of Sigma Theta Tau, Mu Xi Chapter's poster display, contest for naming the MU Xi chapter's news letter, and the research project to develop a network to provide Nursing Journals to nurses of Poland and Czechoslovakia. The Chapter closed with members voting to have the spring meeting return to Grove City Country Club. So you missed this chance to be involved in the Mu Xi connection, you will have another chance this spring.

Locally at the Pittsburgh site, students pre-registered for the spring term and are continuing their efforts to support the local shelters by supplying needed clothing. Anyone wishing to contribute to this cause can contact Nancy Falvo, Assistant Professor, at 412-578-4106. Monetary contributions are also being accepted. Deadline for contributions is Nov. 9.

Self-Esteem--without it life can be extremely painful. According to Dr. Sharon Morrison in her seminar on

Self-Esteem, there are three negative forces within us which operate automatically. They are:

1. An internal pathological critic which breeds negative ideas and transmits them to us.
  2. "Shoulds" picked up from external sources that set you up to fail.
  3. Cognitive distortion which magnifies problems, making them all inclusive.
- She suggested the following ways to deal with these negative forces:

1. Become aware of your total capabilities.

## DID YOU KNOW?

All the water on the earth now is the same amount of water as when the earth was formed. Of this water, 97% is sea water, 2% is ice caps, and the remaining 1% is what we, and the other species in our world, use to survive. This 1% lifeline of ours is being polluted at an alarming rate. Don't wait till we have to utter the sad lament, "Water, water every where...[and not a] drop to drink."\* BE CONCERNED NOW!!

## STUDENT SUCCESS SERIES (Cont'd from Page 1)

2. Acknowledge your good qualities.  
3. Respond positively.  
Dr. Morrison reinforced the fact that if you think positively, you will feel more positive, and when you feel more positive you will attract positive people. This first segment of the Student Success Series was informative and convincingly presented. Dr. Morrison is an asset to Clarion University. Two other segments of this series are scheduled. On Tues., Nov. 13, Terry Duespohl will address the topic, "What Do You Want To Be When You Grow Up"? His focus will be on the various career opportunities available. Jean Rankin will have some helpful hints on "How To Survive Finals" at the Tues., Nov. 27 seminar. The sign-up sheet for this series is on the front desk at Rhoades. ## THANKSGIVING

is a companion of seasonal transition, a reflection of the history of our country, and an opportunity not only to enjoy a relaxing meal with friends and family, but a time to be at peace with ourselves. As the early settlers celebrated their abundant good fortunes, we too, can reflect on our blessings that we so readily take for granted. HAPPY THANKSGIVING!!!

## A GENTLER PEOPLE

Dr. John A. Hostetler discusses the Amish traditions and secrets of their cultural survival at a presentation Wed., Nov. 7 at Venango Campus. This society who sociologists predicted would be a relic of a bygone era, has increased by 100,000 people since 1950. There are Amish communities in 20 states, 1 Canadian province, and 9 in Europe. Dr. Hostetler attributes their secret to these Four Characteristics of Survival: 1. Maintenance of a redemptive community. 2. Restraint in the uses of technology. 3. A strong family life with training in practical arts for children. 4. Effective uses of silence. The documentary film showed examples of clothing, carriages, and farming techniques. Especially interesting was the way that additions were made to each house as the family grew. Dr. Hostetler answered many inquiries from the audience. For those of you who may still have unanswered questions, Dr. Hostetler has published 13 books on this topic. This interesting discussion was presented to a full auditorium. Thanks to all who attended.

## FEEDBACK WANTED!

Dr. Blake is anxious for student input and feedback concerning the two year schedules. The two year schedules are at Rhoades Desk and the Senate Office. Feedback is due Mon., Nov. 12. If you have questions or suggestions, now is the time to address these matters.

The major focuses of the Center are: To interrupt the cycle of abuse within the family, and To educate the community at large about the needs and the problem of domestic violence.

Students at the Pittsburgh Site have been quite successful in collecting clothing and monetary donations for the 1st Annual Drive for the Homeless. Senior student Willis Paul is contacting local shelters to arrange distribution of the clothing.

Nancy Egbert, Assistant Director of Genesis House of Pittsburgh, spoke to the students in Acute Care on teenage pregnancies. Genesis House is a nationally known agency caring for teenage moms and their infants. The all volunteer center provides a complete range of services to their clients. We thank Nancy for sharing her time and expertise with us.

## A Status Report on the Maryland Longitudinal Study by Janet Schmidt (1980) found that...

Students...who reported high involvement with fellow students and with student organizations were more highly satisfied with various aspects of the college experience than those who were less involved.

# C. A. B. CAMPUS ACTIVITIES BOARD

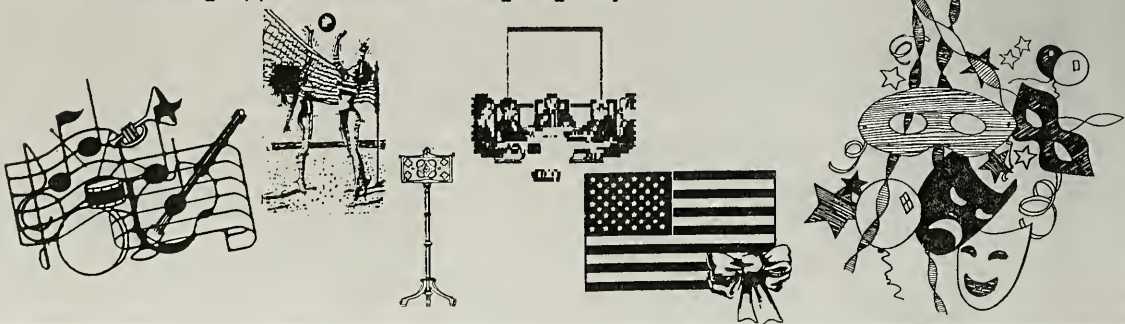

The Senate has decided to initiate a Programming Board for Venango Campus. Many institutions employ this type of organizational structure for extracurricular activities. The Board will be responsible for programming a variety of activities for the campus. This will free the Senate to concentrate more on student issues and improving the campus rather than spending 90% of their time programming activities.

The Board will consist of one or two chairpersons representing the following committees:

- 1) Dance Committee – this committee will plan and implement the Venango dances.
- 2) Special Events – this committee will coordinate a variety of special events for the campus.
- 3) Cultural Arts – this committee will choose cultural performances for Venango Campus.
- 4) Student Union – this committee will program activities, speakers, and movies for the Student Union.

## HARD CHEESE OL' GIRL

WINSTON CHURCHILL was born November 30, 1874. History has it that at one time Winston Churchill was chastised by Eleanor Roosevelt for his drunken condition at a social function. His prompt reply: "My dear lady, when morning comes I'll be sober; but you, on the other hand, will always be ugly!" True?? Only Winston and Eleanor know for sure.

## DAYS OF THE WEEK

The names of the days of the week were derived from the mythological gods of Ancient Rome. The Romans were the first to begin their days at midnight, the ancient Babylonians begin their days at sunrise, and the ancient Jews begin their days at sunset. Sunday was named because it was the day sacred to the sun. Monday was named because it was sacred to the moon. Tuesday was named after Tiw, a god of war. Wednesday was named after Woden, the leader of the gods. Thursday was named after Thor, the god of thunder. Friday was named after Frigge, the wife of Woden. Saturday was named after Saturn, the god of crops and harvest.

NO TWO SNOWFLAKES have exactly the same design!! The colder the weather, the smaller the snowflake. In warmer weather, snowflakes have been measured more than an inch across.

SNOW is actually water vapor that has frozen in the clouds into shimmering six-sided ice crystals. These ice crystals appear white instead of colorless, because all the sides of the ice crystals that make up a snowflake reflect light.

# Happy Chanukah

Part of the ritual of Chanukah, the lighting of the menorah, celebrates both the rededication of the Second Temple of Jerusalem by Judah Maccabee in 165 BCE after it was recaptured from the Syrian Greeks, and the miracle of the lights that occurred. Only one container of oil was left uncontaminated, enough to keep the Temple menorah lit for a single day. Instead, the oil lasted for eight days. To keep the memory of that miraculous event alive, a Chanukah lamp (menorah) is lit every year. The number of candles placed in the menorah increases each night for a total of eight candles, plus the shamash, used to light the candles. The candles are put in the menorah from right to left, as Hebrew is read) but lit from the left, so the one put in last is lit first.

A BIG THANKS goes to DONNA PULEO for volunteering to pick up the turkeys for the ALO Thanksgiving Dinner!!!

## O CHRISTMAS TREE

The tradition of a decorated holiday tree dates back to the Middle Ages when the church observed Adam and Eve Day on December 24 with an evergreen adorned with apples. Germans adopted the idea, but used candles for their decorations. By the 1840's, the idea of a Christmas tree had spread to England, when Queen Victoria's German husband, Prince Albert, set up a tree in the palace. It is thought that soldiers fighting for the British during the American Revolution brought the Christmas Tree tradition to America.

# PITTSBURGH PATTER

[illegible]

On Wed., Nov. 28, Nursing 463 (Acute Care) had a guest speaker that lectured on the issue of legal implications in relationship to domestic violence (i.e. spouse abuse, child abuse). The speaker, Lisa Allen RN, BSN is a senior law student at Duquesne University in Pittsburgh.

A summary of the lecture included types of abuse: physical battering, psychological abuse, sexual abuse, destruction of meaningful things. Common characteristics of an "abuser" include: learned family behavior (often abused as a child), insecure feelings, substance abuser, and dependency upon others. It is estimated that 23% of women that are continually battered actually commit suicide, and every 15 seconds "someone" is domestically victimized.

The overall goal of the lecture was to further educate registered nurses on the importance of assisting clients/families on the issue of domestic violence and ways to implement legal action, if needed.

# A SPONTANEOUS REPLY TO "WHAT IS THE PERFECT PERSON"

To begin with, we would have to have an excellent description of "perfect." In order to do that--No, I don't think we COULD do that because, to do that we would have to be "perfect" to know what "perfect" is. Otherwise, any interpretation of "perfect" that we might come up with is only a thought or ideas of what we think "perfect" might be. To basically define "perfect" and to have everyone agree, so to speak, or to fit that category, we would all have to be the same type of person with the same type of characteristics. Otherwise, our own individuality, our own thought processes create the differences in us. We think differently about a multitude of things. We might think we are perfectly right in thinking a thought, where someone else might think we are perfectly wrong. We have these ideas of the "perfect" rate. "Perfect" in a lot of people's eyes would be someone who does everything that YOU think is "perfect." In reality these ideas are based on selfish motives. We are not saying, I like that person because he/she has good qualities." We are saying, "He/she has the qualities I want in a person, the qualities that satisfy MY DESIRES." Choosing qualities of perfectionism would be quite difficult if we were all the same. There wouldn't be much of a choice, but then again, maybe that isn't part of being "perfect." Having a choice may not be part of being "perfect." To describe someone as "perfect" would mean they were flawless. It would mean that the person cannot be improved. In a world such as we know it and people as they evolve or are created, as we know them, are not without imperfections. And how do we know that they are not without imperfections if we do not know what the definition of "perfect" is? To say that people are or have imperfections is to say that we know what "perfect" is. On the other hand, we must believe that "perfect" is something definable because we are constantly trying to achieve the elusive perfection, and so become insecure because we cannot attain the unattainable.

## WITHDRAWALS

Class withdrawals begin Mon., January 21, 1991 at 10:00 a.m. in the Frame Office.

NOTE: If you withdraw from the college, or if by dropping courses your status changes from full-time to part-time, it is important to inform the administration office about the change AS SOON AS POSSIBLE. By not doing this it could cost you a possible refund and place a permanent grade of "E" on your record.

## TUTORS NEEDED

The tutoring office has a position open for an Accounting tutor and also for a Psychology tutor. These positions require ten hours a week. If you are interested in applying for a tutoring position or in getting more information, contact Jean Rankin, Room 209, Montgomery Hall.

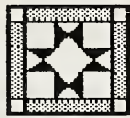

Students...who reported high involvement with fellow students and with student organizations were more highly satisfied with various aspects of the college experience than those who were less involved.

## LOST AND FOUND

Two embroidery hoops with cross stitch designs were found in the Suhr Library last semester. One of the designs is a goose and the other is a teddy bear, both with a Christmas theme. If these hoops belong to you, you may claim them by inquiring at the library.

## A STITCH IN TIME

Creative Artisans will meet Tues., Jan. 22, 1991 at 10 a.m. in Rhoades Center. The project to be introduced at the meeting will be quilting. There are many practical and yet fun activities planned for this semester. Creative Artisans will meet on opposite Thursdays at 1 p.m. for those who are unable to attend the Tuesday meetings. Everyone is invited to come and join in the fun.

**PULL THE PLUG**-Most newer TV sets draw 1.58 watts of standby power for the instant on and other features even when you shut them down. Pull the plug when you're not watching. According to one estimate, the equivalent of one large power plant is needed to run U.S. televisions when they're switched off!!!!

## CHANGE OF STATUS

Thursday, January 31, 1991 is the deadline for filing a change of status for Nursing. If this applies to you, please contact the appropriate people to facilitate your needs.

## WITHDRAWALS

Class Withdrawals began Mon., January 21, 1991 at 10:00 a.m. and will end Fri., March 22, 1991. The necessary forms for withdrawal are available in the Administrative Office. After the form is filled out completely, IT MUST BE SIGNED BY THE STUDENT'S ADVISOR BEFORE THE OFFICE WILL ACCEPT IT.

NOTE: If you withdraw from the college, or if by dropping courses your status changes from full-time to part-time, it is important to inform the administration office about the change AS SOON AS POSSIBLE. By doing this it could cost you a possible refund and place a permanent grade of "E" on your record.

Have an exceptionally  
reflective Ground Hog's  
Day on Sat., Feb. 2.

## THE FOUR CENT SOLUTION

Beginning February 3 the price of mailing a one ounce letter will increase to 29 cents. Each additional ounce will cost 23 cents. The post card rate will be 19 cents. Since the printing had to start before the official rate was known, the new first-class rate will be a "F - Flower" stamp featuring a red tulip on a yellow background. This is the sixth in a series of stamps printed with letters instead of prices.

According to the Associated Press the Postal Service is issuing what it calls a make-up rate stamp which says, "This U.S. stamp, along with 25 cents of additional U.S. postage, is equivalent to the "F" stamp rate." Therefore, that stamp can be used with current 25 cent stamps to make up the difference for the new first class charge.

#### **LET THERE BE PEACE ON EARTH**

We truly do not know the conditions our troops are being made to endure. We can only imagine the emotions wrenching through their bodies or the thoughts racing through their heads moment to moment. Whatever our belief about President Bush or the war itself, the fact remains--these are our sons and daughters, our husbands and wives, our brothers and sisters who are miles from home, in a totally unfamiliar terrain and climate, in hostile surroundings. We should give them the reassurance that we support their valiant actions. It's time our complacency is replaced with a sense of reality and responsibility. We should take heed not to fall into the "Too little, too late" syndrome. The troops are anxious to receive mail from "home." It's a small thing to ask of us. Included is an address for one of our boys. You may submit addresses of troops who would like to receive mail to the BULLETIN mailbox in Frame Office.

## SCHOLARSHIPS AVAILABLE

Check the bulletin boards around the campus for lists of scholarships available for the 1991-1992 school year. Please note that there are two separate lists. One list is "Scholarships Available at Venango Campus for 1991-1992." You only need to fill out one application to be considered for all of the scholarships on this list for which you are eligible. Applications are located on the rack outside the Frame Office. They should be returned to the Scholarship Committee (Frame Office) by March 8. A second list is entitled "Additional Scholarships Available to Students Planning to attend Venango Campus for 1991-1992." This list is certainly not all that are available, but it does include some of the additional scholarships most often granted to our students. You should mail applications to the specific agencies listed. Applications for some of these scholarships are available in the Frame Office. If you want to be given serious consideration you should fill out applications completely, leaving no blank spaces. Always be as accurate as possible. If you have questions, check in the Frame Office or with the chairman of the scholarship committee, Dr. McElhattan in Room 103 Frame.

## PITTSBURGH PATTER

\*\*\*\*\*

Welcome back to all students!!  
The spring semester is in full swing--snow and all!! A lot of BIG news has been developing since our last newsletter. Please join us in welcoming Diane Edwell to our staff. Diane will be assisting Brenda in the infinite jobs she does. We welcome you with open arms and know you, too, will grow to love the madness!

Congratulations to Nancy Lash-Breen (nutrition instructor), husband Michael and family on their new addition. Nancy delivered a 9 lb. 14 oz. (ouch!) baby boy on December 7, 1990. Mom and baby are doing great! Willis Paul, Sr., class president, has been busily planning the Second Annual Senior Dinner. The dinner is tentatively set for Thursday, April 25, 1991 aboard the Gateway Clipper. Stay tuned for further details. Word has it that graduation will take place on Saturday, May 11 at Clarion. Plan your work schedule accordingly.

We received a wonderful thank-you note from the administrators of the Salvation Army. Our monetary donations made the holiday dinners a little brighter and larger and our clothing donations are keeping hundreds of men, women, and children a little warmer this winter. The drive will be a yearly event at the school but donations will be accepted by Salvation Army at anytime.

Our thoughts and prayers continually go out for our students, family members and friends involved in the Persian Gulf War. We await the safe return of all. Meanwhile, Pittsburgh is covered with yellow ribbons. It's something small that each and every one of us can do!

## THE LEGEND OF

## ST. VALENTINE'S DAY

On February 14th millions of Valentines are sent. Who would think that this harmless custom which began many thousands of years ago had its origins in pagan tradition connected with the mating of birds, an ancient lottery for sweethearts, and the martyr's death of a Christian bishop? In ancient times the middle of February was considered the season of Spring. During this time birds chose their mates, which represented an expression of love. The Roman Lupercalia, a pagan festival ritual honoring Juno was a unique kind of lottery. Young girls wrote their names on slips of paper and these were placed in a box from which the boys drew a name. The girl drawn by a young man became his sweetheart for a year, until the next Lupercalia. Valentine was a pagan priest of the 3rd century A.D. who was converted to Christianity and became a bishop. It is said that at the time the Roman Emperor, Claudius, had decided to abolish the institution of marriage, because he felt that husbands did not make good soldiers. Valentine considered such policy against the spirit of God and of human nature. Because he secretly married young lovers, he was arrested and imprisoned. While in prison it is said he cured the jailer's daughter of blindness. Legend contends that he fell in love with the jailer's daughter and sent her a letter which he signed, "From you Valentine." St. Valentine was murdered on February 14, 269 A.D.

THE VENANGO CAMPUS was established in 1961. Local money was raised to procure the present sixty-two acre site and to erect the first classroom building, which opened in January, 1962. This first building served not only as classrooms it also housed the bookstore, the library, and a study/cafeteria area. The classroom building was later named the Richard C. Frame building, in memory of the late State Senator from Franklin.

**RICHARD C. FRAME**

Senator Frame lobbied on behalf of the local institution for recognition, funds, and new programs. He was the keynote speaker at many of the campus' formal activities.

On June 24, 1965 ground was broken for the campus dormitory. Participants in the ceremony used a gold shovel which was subsequently melted down, and the proceeds were contributed to the campus building fund. The campus dormitory was named in honor of J. G. Montgomery, Jr. As former Mayor Joseph Barr stated, "He furnished our community with much of its spirit, quality and direction." One of the interests for Mr. Montgomery and his wife was modern square dancing.

**J. G. MONTGOMERY, JR.**

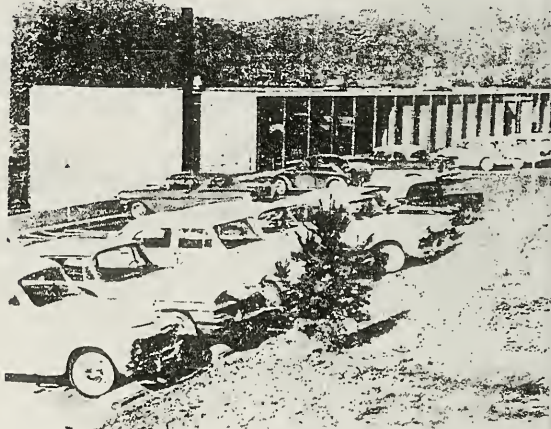

The Rhoades Center was named for R. W. Rhoades in February of 1976. Through his efforts the establishment of the Venango Campus was transformed from idea to reality. After the creation of the branch college here he served as a member of the Campus Advisory Committee and on the Clarion State College Board of Trustees.

### NO PHOTOGRAPH AVAILABLE

Suhr Library, which opened on July 6, 1976, was named for Charles L. Suhr. He served Pennzoil Company for 72 years, starting his career as a clerical worker at age 15 to eventually become the president and chairman of the board. Mr. Suhr was one of the five founders of Venango Campus, Inc.

### NO PHOTOGRAPH AVAILABLE

Pennsylvania Higher Education Assistance Agency--Working your way through college, an old idea, has been revived through the State Work-Study Program (SWSP) administered by the Pennsylvania Higher Education Assistance Agency. SWSP gives college students in the Commonwealth the chance to gain career related experience while earning cash to help pay for next year's school costs. With the semester flying by, summer will be here before you realize it. That means it will soon be time to begin pounding the pavement to look for a summer job. If you want the challenge of a career-related job this summer, consider SWSP. The program has a job bank of employers looking for talented students who want to work in their fields of study. Application for the State Work-Study Program is easy. For eligibility requirements, applications and more information about the SWSP, contact PHEAA State Work-Study Program staff at (717) 257-2550 or contact Frame Office.

The Rape Crisis/Domestic Violence Center of Family Service and Children's Aid Society will be starting a support group for individuals eighteen years of age or older who were sexually abused or molested as children. No matter how long ago it happened or what state of emotional healing you are at, you may find that you have support to offer others, and it may benefit you in the process. The support group is called Adult Survivors of Sexual Assault. There is no charge, and it is strictly confidential. Please call Family Service at 677-4005 to get more information and to register.

## GRANT MONEY

The Northwest Regional Highway Safety Network is inviting community groups, agencies, and organizations to participate in a mini grant award project designed to promote awareness of highway safety. A total of ten mini grants of approximately \$1,000 will be awarded to conduct public information and education projects and activities in fields such as safety belts, bicycle safety, child passenger safety seats, and pedestrian safety. The following is a list of counties that are eligible for mini grants: Beaver, Butler, Cameron, Clarion, Crawford, Elk, Erie, Forest, Lawrence, McKean, Mercer, Potter, Venango, and Warren. Mini grants will be awarded to meet particular highway safety needs in each county. Motor vehicle crashes are the fourth major public health problem in the United States today, and by far, the most preventable. Since the use of occupant protection devices (safety belts, air bags) and safe highway practices have a significant impact on preventing premature death and injury, this mini grant program offers organizations an excellent opportunity to contribute to a major life-saving initiative. The mini grant program is designed to heighten awareness of highway safety concerns on the local community level, where the greatest potential for crash prevention and occupant protection exists. For a copy of the mini grant application, or for more information, contact the Northwest Regional Highway Safety Network toll free at 1-800-NO-CRASH or 814-825-8738. Deadline for finished applications is February 28, 1991.

The Jewish holiday of Tu B'Shevat is an occasion for planting trees. In Israel, children are encouraged to take part; for families in the States, this is an appropriate time to remind youngsters of the importance of trees in the environment and to help them accomplish plantings of their own.

The training program for volunteers is conducted by the Rape Crisis/Domestic Violence Center of Family Service and Children's Aid Society. It will be starting on Saturday, February 9, 1991. A classes and materials are provided free of charge. For further information and class registration, please contact Kathy Knight, Supervisor, at 677-4005.

## WHAT IS THE CAB?

The Campus Activities Board was formed last semester by Student Senate. This board was designed to be responsible for programming a variety of activities for the campus. Many universities employ this type of organizational structure for planning extracurricular activities. The benefits of this type of institution is that it will free the Senate to concentrate more on student issues and improving the campus rather than spending ninety percent of their time programming activities.

The CAB consists of the Vice President of the Student Senate and two chairpersons from the following committees.

Chair - Monica Schmader (V.P. STUDENT SENATE)

1. Special Events - Jane Horner & Scott Switzer
2. Cultural Arts - Cindi Litwiler & Tara Riner
3. Dance - Mary Beth White & Terry Brumbaugh
4. Student Union - Jeff Smith & Kristy Deets
5. Publicity - Jean Marki & Pam Grove

## Activities Planning

All Students are invited to attend two meetings to plan the activities for the '91-'92 school year. The meetings will be held Tuesday, March 12 at 12:45 p.m. and Wednesday, March 13 at 5:15 p.m., in Rhoades Auditorium. Students may come to one or both meetings. # TO THE NURSING CLASS OF 1992

**A Poem by, Diane Esser  
-- A TRIBUTE TO A NURSE --**

The curtain rises on a scene of  
compassion.

A person in projects a proud  
profession.

The angels have touched her caring  
soul, her's is a dedication of  
commitment, of goal.

But her performance is humble, no  
bows, no boasts, though she's the  
character we loved the most.

And were left with an image, a  
positive view, with a gentle stirring,  
angels wear white too.

You are all my angles in white, and I  
love you. Thanks so much for all  
you've done. Hope to see you all nex  
year.

Love,  
Lisa Facemire

## EDITORIAL

*It has become apparent to me after attending recent Student Senate meetings that there is a great need for student involvement in campus activities. It seems that the majority of the students on Venango Campus simply pay the student activities fee and do not question how this money is spent. Every week the nine people who sit on Student Senate vote on which clubs or activities will receive your funds. It is my belief that the student body needs to provide the Student Senate with input and opinions on campus issues. COME ON STUDENTS! Let Student Senate know how you feel. Attend the weekly meetings and let your voice be heard.*

## TEACHERS TO BE INSTRUCTED ON NEW LEARNING METHOD

A new program for area teachers on how to instruct learning disabled students is tentatively set to begin this summer at Venango Campus, according to an article in the Oil City Derrick.

The program presents a new approach to teaching under-achieving students as well, and may lower enrollment in special education programs. The new model, designed at the Institute for Research in Learning Disabilities at the University of Kansas, endows the students with the skills needed for learning and social interaction.

Pat Burns, an Indiana, Penn., Intermediate unit consultant, presented the model at a recent overview session. The goal of the program is to teach the students proper social and personal skills, enabling them to graduate from high school and prepare for life after high school. The program would be provided to area teachers at no cost to the teachers or school districts.

Educators from several area school districts attended the overview session, and school administrators expressed interest in the new model. Upon completion of the program, teachers would become certified in the Learning Strategies Comprehensive Model.

Dean Blake has cited this program as an important contribution to the community. He feels programs like these help our campus to grow and prosper in our area.

## MONTGOMERY HALL OPTIONS

The fate of Montgomery Hall is a major concern for the future growth of Venango Campus.

Bob Crawford, Vice President of Administration at Clarion University, expects that funds will be released this summer for design and renovation of

Montgomery Hall. But the question remains of how to best use the new space.

One consideration is utilizing the space for dorms. However, two points must be examined before submitting the dorm plan. First, the dorms would only house 60 students, making it economically infeasible. Also, it would be more practical for the University to purchase property locally to use for student housing. All options remain open at this point, and students are encouraged to present their ideas on possible uses of Montgomery Hall.

## STRATEGIC PLANNING CONFERENCE

A four-day conference to design a five-year goal plan for Clarion University is being held this week at the Days Inn of Clarion. The five major issues to be addressed are: enrollment management, general education, summer school and continuing education, teaching, and Venango Campus.

The conference will begin at 12:15 on Sunday, March 17, and will wrap up at 5:00 on Wednesday, March 20. One hundred volunteer faculty and staff will be in attendance, and the student governments of both Venango and Clarion Campuses will be represented.

Participants will be working toward devising lists of our strengths, weaknesses, threats, and opportunities; a set of operational goals for each of the five strategic planning topics; agreed-upon priorities for those goals; and recommendations for the ways and means of evaluating goal achievement. The entire University will be informed about the outcomes of the conference via a Strategic Planning Report which will be disseminated shortly after the conclusion of the conference.

## ORVILLE'S SCHOLARSHIPS

if you are 30 or over and enrolled or enrolling in a degree program, you may apply for one of twelve \$1,000 scholarships to be given to students around the nation. The Orville Redenbacher Company is trying to encourage nontraditional students to return to or begin a higher education program. Applications must be postmarked by May 1, 1991. An essay, along with tax returns for two years, must be submitted with the application form. For an application contact Dr. McElhattan in Frame 103.

# PITTSBURGH PATTERN

Spring Break is over and we have returned to class eager to complete the semester.

Pre-registration for summer and fall classes is scheduled for next month. Each student must see his or her advisor prior to registering for classes. This includes graduating seniors who need to enroll in summer classes in order to complete their degree requirements. The classes of '91 and '92 will pre-register on April 18th. The class of '93 and part-time students will register on April 25th.

Pre-registration hours will be from 7:30 am until 4:00 pm. Make an appointment to

meet with your advisor soon!

We are conducting a drive to collect various items and money for the Bradley Center. The Center is a residential and education facility for 43 children ages 6 to 17. These children have been placed at the Bradley Center because of dysfunctional family homes. We are collecting clothing, personal hygiene items and recreational supplies as well as money which will be used for special activities such as field trips. A complete "wish list" is posted on the bulletin board.

Our new "letter board" in the third floor hallway is a great improvement. Thanks to Brenda for doing an outstanding job.

Remember--this semester is half completed, and Easter Break is coming!

## DIVERSITY SERIES SPEAKER

Joanne Washington-Law, Assistant Professor of Communications at Clarion, will present "Minorities and the Mass Media," Thursday, March 21 at 7 p.m. in Rhoades Auditorium. Mrs. Washington-Law will discuss the depiction of minorities in the mass media, and the public's knowledge of these cultures. The event is co-sponsored by the CAB and Psychology Club.

A third presenter will be here in April to speak on Soviet reform.

## GET INTO THE ACT!

Anyone who is interested in putting an act together for the Venango Campus Talent Show can submit details of their act to Jeff Smith or Scott Switzer. The deadline is Wednesday, April 3. Practice will start Thursday, April 4.

## FUN IN THE SUN!

Interested in sunny weather and hot sand beaches? The end-of-the-year fun trip will be to MYRTLE BEACH for seven nights. We will depart from the campus on May 13th and return on May 20th. The cost is \$75 per person, and one guest will also be allowed to attend for \$75. A \$25 deposit fee is required per person when signing up. The additional \$50 must be paid by April 30th. There is no refund on the deposit fee. We hope you will all join us for "fun in the sun!" Sign up NOW in the office.

## BABYSITTERS NEEDED

Babysitters are needed for the dinner theater on April 5 from 6:00 to 9:00. This is a paying job open to those 18 or older. For more information, leave your name and number in Cultural Arts mailbox in Rhoades or contact Cindy Litwiler at 676-6986 evenings.

\*\*\*\*\*

Dr. Blake would like to hear from the students so that he may know what we feel are the critical needs of the campus. Please write down any suggestions or comments you would like to go to him and return them to any student senator or Rhoades clerk.

## EDITORIALS

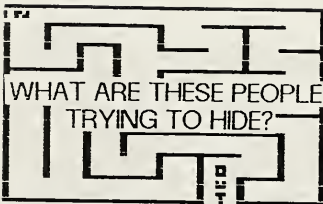

We at the BULLETIN encourage and invite students to submit editorials on campus or world issues. Editorials should be no longer than 250 words in length, and should be turned in to the BULLETIN office \*(205 Montgomery) by noon on Wednesday to be considered for publication in that week's BULLETIN.

8. TOTAL will have a meeting Wednesday, March 20 at 12:30 in Rhoades. Election of officers, discussion of workshop, Earth Day plans, and plans for science olympiad. Reminder - any nominations for office should be placed in TOTAL mailbox or given to Jean Marki.

4. **PARALEGAL CLUB.** Anyone interested in attending various court proceedings and researching various areas of the field are invited to join the Paralegal Club. Anyone who is interested should contact Roberta Wielandt at 677-5889.

To properly accomodate the many different views and the wide range of age groups represented on Venango Campus, it is imperative that open communication among the various student organizations can be maintained. This would allow the different organizations to better serve the students they represent.

The Student Senate claims to be responsive to the input of the entire student body concerning campus issues. However, with some of their actions they seem to be further isolating themselves from student concerns on campus issues. In the past the BULLETIN has found it necessary to record senate meetings. At a recent Student Senate meeting Jane Horner, Treasurer of Student Senate, made a motion to prohibit the recording of senate proceedings. Though several students in attendance questioned the logic of imposing such a restriction on students' rights, the motion was voted on and approved. It is evidently not apparent to Student Senate that open communications cannot be achieved by blockading avenues of information.

With such actions on the part of Student Senate, one must wonder what it is that this board wants to keep from the student body. If you are asking yourself these same questions, or questions on other issues on the campus, come to the Student Senate meeting next Thursday and ask your senators for some answers. Rhoades Auditorium 1:00 pm.

## QUESTIONS ADDRESSED AT SENATE MEETING

Last Thursday's Student Senate Meeting saw a great increase in student attendance, creating a larger amount of discussion between the students and the Senate.

The meeting was attended by 31 students and 1 faculty member, with all members of Senate present. Most of the students remained silent throughout the first half hour of the meeting, but began to ask questions when a Student Senate fundraiser was brought up.

Senator Paul Grunenwald presented Senate with a proposal for a volleyball tournament to be held April 27. Grunenwald said the tournament would be sponsored by Barr's Insurance, and would be a fundraiser for the Student Senate. The funds raised would then be used to purchase jackets for the senators.

This proposal sparked the attending students to question the Senate on exactly where the funds were coming from for the purchase of the jackets. The Senate explained that the funds were *not* coming from future student income funds, as stated in the minutes of the March 7 meeting. Instead, the jackets will be paid for through Student Senate fundraisers, such as the volleyball tournament.

After more discussion on the funds for Senate jackets, Mark Yashinski presented the Senate with two petitions against Senate actions. One petition objected to the use of

student income funds for Senate jackets (an issue that had already been discussed at the meeting), and the other protested the restriction of tape recording the Senate meetings.

Debate soon began over whether the taping of meetings should be allowed. Members of the Senate expressed their hesitancy to allow the recordings, because they wanted students to come to the meetings in person. Some students at the meeting told the Senate that they and other adult learners often have other commitments which do not permit them to attend the meetings. The point was also brought up that if the meetings were recorded, the secretary for the Senate would find it easier to type up the minutes.

Cristy Deets then introduced an idea for the Senate to tape

record their meetings and make the tape available to students to dub in the library. The idea seemed to receive a positive response from the students.

Despite the debate over the recording of Senate meetings, a vote could not be taken, due to a rule in the Student Senate Constitution which states that upon the petition of twenty-five per cent of the Student Association, a referendum must be held within two weeks of presentation of each petition. Senate President Rob Finch then announced that Lonnie Heeter would be in charge of a new election committee to proceed with the election process. Finch also asked any students interested in helping with the referendum vote and the fall elections to contact Lonnie Heeter.

# LETTERS TO THE EDITOR

## POLICY SUGGESTIONS Submitted by Pat Zook

Dear Bulletin Editor,  
In response to the situations that have recently developed to put the Student Senate at odds with the student body I would like to share a few thoughts that might ease some tension over these issues.

After attending last week's senate meeting, I was encouraged to hear several issues cleared up that prompted some heated response from the students. It is unfortunate that that some senators feel we accomplished nothing. It was a relief to learn many of the misunderstandings between the student body and the student senate were the result of several clerical errors in the minutes of previous senate meetings. I question, however, why there seems to be such a problem with accuracy in recording and transcribing something that obviously provokes a great deal of response and should be handled more professionally. I think that many students would consider this job to be exceptionally well paid and should, therefore, be well-performed. The alternative has proven disastrous.

The point of our high percentage of nontraditional student census being unable to take advantage of clubs, activities, and senate meetings cannot be emphasized enough. It's essentially the biggest factor in determining how and why we do things as we do at Venango Campus. If student input is really what senators want, they can readily receive it, but only if they value it enough to go after it. It appears the format to which we so desperately cling may be obsolete for our particular student body's needs. Consider, please, some suggestions on improving student input which might, in turn, improve student attendance at senate meetings:

\* Hold noon-time Senate Forums at which a senator explains an issue before the senate and asks for a straw vote. This can be done at various times during the week at Rhoades Hall taking approximately 10 minutes. Encourage those who wish to discuss/debate the issue to attend the next Student Senate meeting. **USE THIS INPUT WHEN CASTING THE FINAL VOTE.**

\* For those unable to attend senate meetings or forums, present the issues in the Bulletin and encourage the student to submit their vote and/or input in the ballot box in Rhoades Hall with the assurance this will be shared at the next senate meeting.

The idea here is not to wring our hands over poor meeting attendance, but to genuinely seek to understand the feelings of the student body and to implement that information into the decisions and policies of the student senate. Getting people into these meetings because they're angry over their representation is not a good indication that we are working together. Nor is simply stuffing warm bodies into the auditorium seats going to guarantee responses.

I was surprised at the lack of respect shown by some senators towards those whom they are representing. The senate body appeared unaware that the students were trying to express the desire that the senators consider using more prudence and common sense in their spending habits. Replacing borrowed funds before spending more money (especially for something as nonessential as matching jackets for the senators) would be a good starting point. Also, a contingency plan should be considered in the event a fundraiser would fail, leaving them with a deficit. Senators might also want to curb the growing animosity

between any senators and the student body. It does not instill confidence. This particular situation is most unfortunate because those serving on the senate and CAA have worked very hard this year and no one wants to see credit taken away from them because of the inability to respond maturely at meetings. Senators, no one can erode your credibility but you.

The students care a great deal more than what the senators seem to be aware. Trust takes a long time to build, but can disappear quickly. I hope our senate doesn't throw away what they've worked so hard to establish simply over a battle of wills. It isn't worth it.

## STILL UNCLEAR

Dear Bulletin Editor,

I would like to address the petition presented to our Student Senate on March 2, 1991. I still feel that there is a bit of confusion surrounding the issue of the senate jackets.

When reading the minutes from the senate meeting of March 7, 1991 I became confused of the issue of the jackets. I approached Rob Finch [President of Student Senate] and asked him to clarify where the money was coming from. I was informed at that time the jackets were purchased and the money was to be repaid out of funds from future events. At no time were the terms *senate funds* or *fund raisers* mentioned.

I believe this is where the petition came into effect, due to the general concern of the students that our money was purchasing the jackets. The question I have is this: How did the answer to a such a simple question get covered up so quickly by Student Senate?

-- Sandy Penman

Letter to the Editor  
..... NOTHING TO HIDE  
Submitted by: Jane Horner

As a student at Venango Campus, I have worked very hard to help anyone with any problem here on the campus. I have volunteered many, many hours to trying to find solutions or the right person to help somebody. Working on dances, tedious bookkeeping, senate hours, extra activities, and just plain being available in Rhoades to communicate with other students involves alot of time. I like being a Student Senator, but it seems as though Mark Yashinski, Editor of our Bulletin, is determined to undermine all of the hard work this senate has done to open the communication lines on Venango Campus. For the last three weeks he has written editorials criticizing the senate. Does he see nothing good about the senate?

I made a motion to prohibit tape recording of the senate meetings. Mark neglected to tell you all that we as a senate had spent much time debating this issue. He also did not give our reasoning for this decision. We want students at our meetings; not tape recorders. Students can give us immediate input and discussion; a tape recorder merely records.

Many of you have been given the wrong impression of funding for senate jackets. *This is not coming out of club income accounts.* The Student Senate does not control these accounts. Each club has total control over their own income accounts. the senate has held fund raisers. Each of these fund raisers are stated in our minutes, which are posted, have always been open for students to review, and as far as I know, always will be.

Mark, the Student Senate is not trying to keep anything from students. I personally would appreciate it if you would stop trying to instill distrust among the students. Student Senators volunteer their time; You are paid to be Editor of the Bulletin.

### - EDITOR'S NOTE -

Since accepting the position as Editor of the BULLETIN, I have until now received no comments or criticism about this office undermining efforts by Student Senate to improve communications among the student body. In fact, I have received only favorable response from students, faculty, and staff. It has also been brought to my attention by faculty and students, past and present, that they cannot remember such a strong effort to encourage student involvement, either by the BULLETIN or Student Senate. I would also like to point out that any posters, banners, or any other public notices encouraging the students' input at senate meetings has been through the commitment of the BULLETIN.

It is true that the position as Editor of the BULLETIN and the position of Assistant Editor are both work study jobs. However, I don't believe that a weekly publication that is produced in the ten hours for which we are each paid would be at all beneficial to the students of Venango Campus.

At this time, I would also like to commend Jean Marki for the many hours she dedicates to the BULLETIN on a volunteer basis.

VOL. 13 NO. 10

APRIL 2, 1991

**THANK YOU**

The faculty and student body of Venango Campus would like to extend their deepest gratitude to the members of the Campus Activities Board for the many extracurricular events CAB has sponsored over the past year.

Everyone enjoys attending the different events provided on Venango Campus, but often times the people that attend the dances and other activities take for granted all the hard work that goes into planning and preparing for these events. Planning, budgeting, and decorating are just a few of the tasks that the CAB is saddled with in organizing the many activities on campus. College life is a very stressful time for many students, and through all their hard work, the CAB provides a variety of functions where we can relax, unwind, or just socialize with students.

The Campus Activities Board is made up of the Vice President of Student Senate, Monica Schmader, and chairpersons from the following committees:

1. Publicity - Jean Marki and Pam Grove
2. Cultural Arts - Cindi Litwiler and Tara Riner
3. Student Union - Jeff Smith and Cristy Deets
4. Dance - Mary Beth White and Terry Brumbaugh
5. Special Events - Jane Horner and James Lemke

Thank you CAB for making our lives on Venango Campus something more than just going to class and studying.

**REFERENDUM  
POLLING**

Venango Campus students voted to reverse two actions of Student Senate in last weeks referendum polling. One hundred and two students voted on the measures.

The first referendum asked whether the students were opposed to or in favor of the Student Senate purchasing matching jackets with funds from student activities fundraisers. Seventy-three students opposed the measures, and twenty-nine supported the purchase.

The second referendum questioned whether students should be allowed to tape Student Senate meetings. Ninety students voted that the students should be able to record the meetings, and twelve voted in favor of restricting the taping of senate meetings.

The referendums were the result of two petitions presented to Student Senate at their March 21st meeting.

**AND THE WINNER IS!!!**

Shari Miller was the winner of two FREE movie tickets in the Oscars Contest sponsored by the BULLETIN and The Cranberry Mall Cinema World. Ms. Miller was one of six contestants to correctly predict the winners in three of the four categories in the contest. The tie was broken by a drawing.

**CUP****MAJOR GOALS**

Two of the major goals decided on at the strategic planning conference directly affect the future direction of Venango Campus. At the Strategic Planning/Goal Setting Conference that was held on Clarion Campus from March 17th through the 20th a list of ten goals was designed while planning for the direction of Clarion University over the next five years. Two of which will directly effect Venango Campus.

One of these is the implementation of an intense and comprehensive program that will help under-prepared students to raise the level of their basic skills. The program will concentrate on the three basic subjects of reading, writing, and mathematics, requiring the student to reach the level in these subjects as established by the university as appropriate for entering regular classes. The university plans to have this program in effect by 1994.

Another goal CUP has listed is a comprehensive plan for the management and operation of Venango Campus. This plan would deal with the administration, organization, budget support, and image among other related issues.

## - EDITORIAL -

Last week's referendums proved that the students and senate can work together toward a positive result. I would like to commend the Student Senate on the efficient and professional way in which they dealt with the student body's requests that certain changes be made.

It was also satisfying to see students becoming more involved in what goes on at Venango Campus. However, it is unfortunate that the measures taken were necessary to get a response from the student body.

Another disturbing thing is that only about one quarter of the students on campus expressed their opinions on these issues when they were asked to vote. But, it appears that the campus as a whole is moving toward more positive and open communications. Let's keep up the good work.

- M.A. Yashinski, Editor

## LETTER TO THE EDITOR

### Is This Necessary?

submitted by: Phillip Kosak

Bulletin Editor,

I attended the Student Senate meeting on March 21st and I feel, as a student, that the communications between the student body and the senate needs to be greatly improved.

At the meeting, Jane Horner immediately seemed to take the defensive in response to the students' requests for answers, attacking them with derogatory remarks like "you're nit-picking," or "you're patting yourself on the back." Neither of these types of remarks are needed to hold a productive meeting.

The Student Senate wants to promote open communications through posters and the Bulletin, but they may also do this by talking with the students.

Jane's remarks were unnecessary and unprovoked. We don't need this type of communication. What we need are specific solutions to the problems that the students have.

## LETTERS TO THE EDITOR

We at the BULLETIN encourage students to submit letters to the editor on campus or world issues. The length should be no longer than 250 words, and submitted at the BULLETIN office (205 Montgomery Hall) by noon on Wednesday to be considered for publication in that week's BULLETIN.

\*THE STAFF OF THE BULLETIN RESERVES THE RIGHT TO ACCEPT OR DECLINE ANY LETTERS OR EDITORIALS.\*

\*\*\*\*\*

\*THE OPINIONS EXPRESSED IN EDITORIALS AND LETTERS TO THE EDITOR ARE NOT NECESSARILY THOSE OF THE UNIVERSITY OR THE STUDENT BODY.\*

## STUDENT SENATE '91 by Cristy Deets

Student Senate '91

Each of us different

Come together as one

To decide what's best for  
all concerned.

Rob Finch - Our President

"Cowabunga, Dude!" is often  
heard in our halls.

Sometimes this causes a  
question of status,  
How do you remain so calm?

Monica Schmadler - our VP

You try so hard to keep CAB

in line,

When this year is thru I'm sure  
We'll hear your sigh of relief.

Jane Horner - our Treasurer

Dear

What can I say?

Our meetings would be dull  
without you, I fear!

Of nine, that's three

Six more we'll see!

Terry and Mary Beth

With comments, giggles and  
frustrations, I feel

And I hope most were kept  
under your breath.

Came in mid-year

When we were just shifting  
gears.

Paul - I must admit

You are my challenging

counterpart.

I wish I had some of your  
feathers and wit.

## SHARE AN EXPERIENCE!

Students who have experience to share about making one's way on the Clarion Campus will have two new opportunities to do so. A notebook will soon be available at the Rhoades Desk, so that students may leave information for those to follow concerning problems they've encountered, and solutions they've found. Watch for announcements to follow.

The Counseling Center is also looking for students with experience on the Clarion Campus to act as Resource People to those who are approaching transfer or a first class at that campus. Resource people would need to be willing to take calls, and answer questions based on their experience. An effort will be made to refer students to those with the same major, or in the same school. Anyone interested in acting as a Resource Person should call Becky Grove, ext. 277.

Dr. Blake wants to know what you, the student, feel are the critical needs of the campus. Please fill out this form with any suggestions or comments you would like to go to Dr. Blake, and return this sheet to any Student Senator or Rhoades Clerk.

## CAB POSITIONS OPEN

The Student Senate is looking for volunteers to take over the ten co-chair positions on the Campus Activities Board which will become available at the beginning of next semester.

Being a member of the CAB is a very rewarding position. It gives students the great opportunity to be involved in planning many of the activities on Venango Campus. Chairpersons also take part in training sessions and workshops, learning a variety of leadership skills. Among these skills will be planning, marketing, goal setting, and negotiating. These positions are not only personally rewarding, but prospective employers also often look for this type of involvement and experience on students' resumes.

The Campus Activities board is a very important part of our student government, not only because it presents the opportunity for a wider variety of students to get involved in events on campus, but it allows Student Senate more time to concentrate on serious student issues.

The CAB consists of co-chairpersons representing the following committees: Dance, Special Events, Cultural Arts, Student Union, and Publicity.

Contact Greg Rex or one of the current chairpersons for specific job descriptions, or go to Rhoades Center, Frame Office, or Student Services to pick up an application.

## SCHOLARSHIP

The Crawford County Council of Sportsman's Clubs is sponsoring a \$500 scholarship which will be awarded to a current resident of Crawford County who has been accepted or is enrolled in a conservation related major for an Associate or Bachelor Degree. See Dr. McElhatten at room 103 in Frame for an application form.

### PRE-REGISTRATION

Pre-registration for fall 1991 begins Monday, April 8, 1991. Check the priority list on the wall in Frame beside room 212. This list will tell you the exact date you are to bring your schedule in to the Administration Office to have your classes entered into the computer. Now is the time for you to make an appointment with your advisor to help you with your fall 1991 class schedule and have it signed by him/her. If you are currently enrolled, your schedule will not be accepted without an advisor's signature. Don't delay! Please see your advisor before your scheduled date.

*The purpose of all higher education is to make men aware of what was and what is; to incite them to probe into what may be. It seeks to teach them to understand, to evaluate, to communicate.*

# WHY AM I HERE?

Mark A. Yashinski, Editor

Serving as Editor of the Venango Campus BULLETIN is a source of great pleasure for me. It is very enjoyable to be involved in the activities on campus in this capacity.

It is now 2:00 a.m. on Friday morning and my Assistant Editor and I are struggling to finish the BULLETIN to meet our deadline, which is noon. Cutting, pasting, stretching, and piecing little bits and pieces of news together to produce a newspaper that not only we, but the entire student body and faculty of Venango Campus can use and be proud of. After all, this is your newspaper.

Unfortunately, part of the reason we must keep these late hours on Thursday night/Friday morning is that the different organizations and individuals who wish to submit articles seem to ignore the fact that we have a deadline for all articles to be submitted by for publication (Wednesday at noon). Also, when they do get us things on time they are often times scribbled illegibly on a scrap of paper, not on the official forms which we would like them on, or so sketchy we are unable to tell exactly when or where the event you want us to announce is going to be. Everyone is so quick to criticize us for not printing their specific organizations event, or correct us when there is an error in the time or place, but they don't seem to realize that we can only print an article if it is given to us or if all the important facts are included. The bottom line is that we don't like to refuse any articles, but we also don't want to print them inaccurately either.

From this point forward the following rules for submitting articles for publication will be STRICTLY enforced:

NO ARTICLE OR CLUB NEWS SUBMITTED BY STUDENTS OR FACULTY WILL BE CONSIDERED FOR PUBLICATION UNLESS IT IS RECEIVED BEFORE NOON ON WEDNESDAY, UNLESS SPECIAL CIRCUMSTANCES APPLY. THESE SPECIAL CIRCUMSTANCES WILL BE SOLELY UP TO THE JUDGEMENT OF THE BULLETIN STAFF. ALSO EACH ARTICLE MUST BE SUBMITTED ON A BULLETIN SLIP AND HAVE COMPLETE INFORMATION INCLUDING WHO, WHAT WHEN, WHERE, WHY, AND HOW. ALSO THE NAME OF A PERSON WE CAN CONTACT IF A QUESTION SHOULD ARISE.

The staff of the BULLETIN only wishes to serve Venango Campus as efficiently and accurately as possible.

THANK YOU

I'M CURIOUS\$

--DeWayne Harbaugh

The main purpose of last Thursday's Student Senate meeting was for the Senate and representatives from each of the clubs to discuss the individual club budgets.

After the meeting came to order and the minutes of the past week's meeting were approved, Senate President Rob Finch began the budget discussions by stating that all budget proposals combined added up to over \$69,000, while the actual amount available to the clubs is under \$48,000. Therefore, he stated that the budgets would need to be cut by a total of over \$21,000.

As Senate went through each club's budget, small cuts were suggested here and there, and no large problems arose. Many of the clubs had requested small amounts and provided for little or no

cushion, and I believe Senate realized this.

The last budget to be covered was the CAB budget, which came to a total of over \$31,000. I was amazed to see some of the items on the CAB budget and their costs. For instance, \$3,500 was requested for both the Christmas and Spring Dinner Dances. I would like to know what expenses to put on a dinner dance could possibly add up to \$3,500. We must also remember that students pay for admission to these dances.

Another couple of items on the CAB budget struck me as being redundant. Under "Special Events," a Halloween Party on Train is listed, with a proposed amount of \$150; and under "Dances" is listed a Halloween Dance, at a projected cost of \$1,700. Is it really necessary to hold two similar events in the same month (possibly even the same week)? With the extreme difference in cost, why would a Halloween Dance even be a consideration?

Looking over the rest of the CAB budget, I see some wonderful ideas for events, and I am sure many of them came from the NACA convention. While these are great ideas, I think it's necessary for the CAB and Senate to remember that we are a small campus with a much smaller student activities budget than most campuses. Some activities cannot be justified when using up such a large portion of the budget.

In closing, I would like to say that IN NO WAY do I envy any of the Senators this week. The job they have in front of them is an enormous one. We will find out at this Thursday's Student Senate meeting how well they have performed at possibly their most difficult task of the year. I hope they are able to keep the needs and interests of the entire student body in mind as they do their budget trimming.

Good luck, Senate!

## CONVERSATIONS WITH ED

--by Dr. James Blake

I was talking with Ed last night, over a beer. Ed is my bulldog. He was complaining about the noise in the cellar--as if he should talk with the way he snores--and about me, and talking up Venango Campus.

"Put it on the car," he insisted, referring to the Venango Campus decal he found in the den.

"Ed, I love the campus, but I don't want to put a decal on the car."

"It's a marketing tool."

"I know that, Ed."

"Well, it seems to me it's the least you could do."

I didn't respond.

"One of the benefits of a campus this size is that people feel they can make a difference. And they have been good to you, you know. They didn't even complain about the "hotel" you're running here on Scotts Drive."

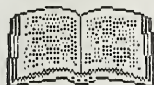

This was a reference to the creatures in the cellar, eleven of them, who live with us.

"There's such a thing as zoning laws you know," he continued.

I told Ed, "I know."

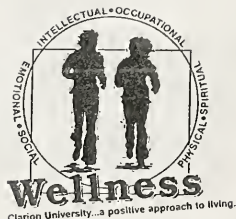

He looked at me hard and then sighed, a sure indication that speaking his mind had mollified him, and then gazed out toward the street.

"You do a nice job with the lawn," he said, "I'll give you that."

## BOOKS NEEDED

## PLANNING GOALS FORUM

[illegible]

Goal 6 states:  
"By May, 1992, a comprehensive plan for the management and operation of Venango Campus, including the administrative responsibilities of the Executive Dean, shall be developed. This plan shall treat such issues as administration, organization, budget support, community involvement, facilities, services, student support, and image among other related issues."

# ATTENTION!

Rather than complaining, give us your input so that we can improve the situation.

## ATTENTION MAY GRADUATES

In the April 8 letter you were sent about commencement, I said that rehearsal was on May 12, at noon in the Rhoades Auditorium. I made a mistake. It is May 10, at the same time and place.

## SCHEDULING PROBLEMS

--M.A. Yashinsk

Since it was published a short time ago, I have heard many people complaining to their fellow students about the fall class schedule. There are a variety of complaints that can be floating in the air and bouncing off the walls of Rhoades Center. You can faintly hear: *There aren't enough day classes; it seems that the schedule is aimed more toward the part-time students and ignoring the needs of the full-time students; or They don't offer enough required classes in my major; and There aren't enough sections of certain classes offered.*

Unfortunately, neither the air in or the walls of Rhoades Center can help with your scheduling problems.

It seems that no matter how hard open communications and the proper avenues of open communications are stressed the students of Venango Campus refuse to utilize them.

No positive steps can be made in regards to scheduling or any problems for that matter on campus, if students limit their efforts to discussing them over lunch and a smoke.

The faculty, staff, and administrative personnel get paid to assist you in properly dealing with such issues as scheduling. Talk to them!

If you have a problem with scheduling contact in writing either Dr. Blake through Frame Office or Dr. Reagle at room 212 in Montgomery Hall.

Open communications is an essential tool in solving any problems whether it be at an institution of higher learning or in society as a whole. The people that would be happy to help you can't if you don't talk to them. After all, Frame Office is just a stone's throw away from Rhoades and Montgomery Hall is just a good stretch of the legs.

## CONVERSATIONS WITH ED

--By Dr. James Blake

"So what are you going to do about it?" Ed asked.  
Ed is my bulldog. We were sitting out on the deck, enjoying the warm weather. Ed was concerned about the oak trees on campus--about gypsy moths.

"I am going to ask the students to help. We'll get out there with some detergent and murder them."

"You have to watch those violent metaphors," Ed complained.

"Well, that's my plan anyway." I said this peevishly. If there is anyone more annoying than Ed, I don't know him. (What gets me is that he is always so haughty.) "Does Martha approve?" Ed asked.

Ed was referring to Martha Ritter.

"I didn't ask her yet."

"Well, you better check 'your plan' with her before you do anything. She knows what she's talking about--unlike some people."

"Are you implying that I don't take care of our environment, Ed?"

"Well, you could stand to have your consciousness raised a bit. We only have this one planet you know. There is no place else to go."

I told Ed that I knew.

"Well," Ed said softly, his tone becoming conciliatory, perhaps she is overly fond of felines." And then he let me have it. "But other than that, she's got it all over you."

I left him smirking on the deck and went inside.

CONGRATULATIONS to the following bowlers for finishing first in the extramural bowling competition: Jim Lemke, Pat Driscoll, and Beth O'Brien.

There were five fatalities and scores of missing persons reported following the tornado drill on Tuesday, April 9.

Those known to be dead have been identified as faculty members Dr. Martha Ritter, Greg Barnes, and Anita Hall; and BULLETIN staff members Mark Yashinski and Jean Marki. Included in those missing are the members of Dr. Konitsky's anthropology class.

The tornado drill was part of Pennsylvania's 6th Annual Weather Awareness Week. Those who survived the drill followed the safety procedures of the campus. Because the campus is not equipped with any sort of sound alert device to alert people to an emergency, specific individuals on campus have been appointed to notify each building of any emergency.

**THE SAFETY AREAS FOR CAMPUS BUILDINGS ARE AS FOLLOWS:**

FRAME - ground floor hallway, against back wall, between rooms 112 and 107

SUHR - inside the library, in the Technical Processing Room

MONTGOMERY - ground floor hallway, between room 101 and 106

RHOADES - ground floor, auditorium against walls

Letter to the Editor:

## "HONK IF YOU LOVE YOUR DOG"

--by Sandy Penman

On Monday, April 15th, I parked in the lower student parking lot next to a maroon car with a bumper sticker which read "Honk if you love Jesus." In the back seat was a rather large black puppy.

Understand that the windows were all tightly rolled up and the doors were locked. Since this dog had no way to receive fresh air, no water to drink, and no way to get out to relieve himself, I became concerned. To make matters worse, we had just had a downpour and the sun had come out, making the inside of the vehicle extremely hot.

At 6:30 p.m. this dog was still in the car, windows up, no water, etc. This dog was trapped in this car for five and a half hours that I know of.

If this person loves Jesus so much that they would display a bumper sticker that proclaims their love, why would they punish one of his creatures?

If I find this dog in this car again, I will call whoever is necessary to see to it that this person is heavily fined and this cute black puppy is taken out of their care.

I believe that the ASPCA has laws preventing cruelty to animals. How much more cruel could a person be to an animal than to trap him in a hot car with no air and no water for five and a half hours.

Letter to the Editor:

## SCHEDULING PROBLEMS

--by Bonnie Irwin

As the semester comes to an end, I start looking forward to scheduling for next semester. New classes, new challenges, one semester closer to graduation.

Then as I glance through the class schedule I am appalled to see that I am unable to schedule any one class needed on this campus before 5:00 p.m.

The purpose of my becoming a full-time student was so that I could get my classes over more quickly and during the day. Being a full-time student is not my only responsibility. I am also, as are many other students here, a full-time mother, wife, and I am holding three part-time jobs.

A night class once or twice a week is not wonderful, but it is liveable. But I will be here four nights a week. I will get home in time two nights a week to put my youngest to bed, the other two nights they both will already be asleep before I get home. Not to mention the cost of a babysitter, which comes out of my pocket. I am not going to be there to help with homework, make supper, or even to have our daily, "How did your day go?" conversation, which may not seem like much to some of you, but it is of great importance to us.

I realize there are a lot of students who work in the day and come part-time at night, and that is great. But schedules should be set up to accommodate the full-time student. It should be harder or more inconvenient for a part-time student to get the classes when and where they want, not the full-time student.

I'm not saying to cut out night classes. I'm saying anything that is held at night we should also be able to get during the day on this campus. This is where two-year degrees are required to go. We should be able to get what we want and need here, as well as reasonable times. No one who is a full-time student should have to schedule all their

classes for 5:00 p.m. and after.

After last semester's survey, I thought things would improve for next semester. Or was this just another way to waste paper and our time?

## ADOPT-A-HIGHWAY

Does garbage along Pennsylvania highways bother you? We as a campus can and should get involved in helping to "Keep Pennsylvania Beautiful." "Adopt-A-Highway" is a program sponsored by Pennsylvania Department of Transportation, that partners citizen volunteers with PennDOT to provide cleaner roadsides. Cleaner highways present a better impression to travelers and tourists visiting our state.

Groups, clubs or organizations agree to adopt a two-mile section of highway for a period of at least two years. Litter is picked up four times a year, with PennDOT providing safety materials, signs, vests and bags. Adoption signs are posted, by PennDOT, on each end of the two-mile area a group might adopt, designating what club or organization is responsible for that area. Your club gets exposure and publicity, while Pennsylvania gets help to clean up its 150,000 acres of roadside.

Community support is needed for anti-litter and highway beautification programs. As I have traveled through Clarion County over the last few months, the highway adoption program signs have become very noticeable. In Venango County the *absence* of signs is *more* noticeable! Venango Campus organizations could make a difference, in the beauty of Venango County and promoting environmental awareness, by *getting involved!*

For more information, or for an application for your organization, contact: Michael Hammond, County Adopt-A-Highway Coordinator, at (814)432-3115. On campus, contact Carol Morris or call 677-5080.

## CONVERSATIONS WITH ED

--By Dr. James Blake

"Spring is my favorite time of year," Ed said. He was looking at the budding trees in the yard. Ed is my bulldog.

"That's interesting, Ed," I said, skepticism in my tone. "What do you like best about it?"

"Oh the colors, the flowers, the clean smell of the air after the rain."

"Are you sure that you're not faking this love of nature?"

"What do you mean?" It doesn't take much to offend him.

"Well, come on Ed, everyone knows that animals lack an aesthetic sense. And that's not just my opinion, it's scientific fact."

"Oh, and I suppose that I can't talk either."

"I bet you can't. The fact that I can hear you is probably nothing more than my lack of mental health. I admit to being crazy, Ed."

Ed looked over at me, his bearing contemptuous.

"The next thing that you'll be saying is that animals have souls. You don't claim to have a soul, do you?"

"God loves all his creatures," Ed replied. "Have you forgotten how God admonished Jonah? Do you remember the specific reference to cattle? Or the sparrow mentioned in Matthew?"

"But Ed," I protested, "the reference to cattle in the city of Nineveh is only to establish the wealth of the city."

"So you say."

We were silent for a while.

"I like the briskness, the cool air," Ed said at last.

"Well," I countered, "at least you're not slobbering as much."

# ARE THERE ANY HOMELESS IN VENANGO COUNTY?

Ask anyone on the street and they would answer "definitely not!" The question being "are there any homeless in Venango County?" If you answered none, you are not alone in your thinking. However, in 1989 in Venango County the Office of Economic Opportunity provided case management and housing assistance to 600 people. While there are no people sleeping on grates, there are people with no permanent night time residence to call "home." This means children don't get registered in school and don't always have a bed to sleep in, or food to eat. Venango County has a high rate of unemployment and has been hard hit. These are proud people, many of whom have not needed assistance before. It could be any of us, a friend, a relative, or a neighbor. Awareness that the problem exists is the first step to a solution. Food, clothing, and shelter are necessities that not everyone is privileged to have.

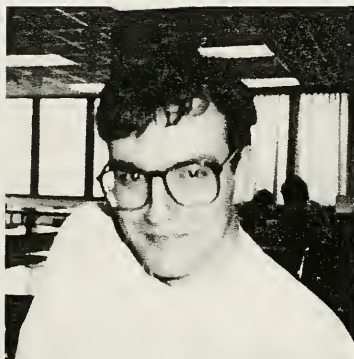

--Denise Pickens, Assistant Deputy Director, OEO

### THANKS!!!

I would like to take this opportunity to thank DeWayne Harbaugh and Jean Marki for their invaluable assistance in publishing the BULLETIN. They both have dedicated many hours of hard work to the BULLETIN over the last semester. DeWayne through his writing, designing, and preparing the newspaper for the printer has been a great asset in this time when the BULLETIN is going through a major transition. Jean has also worked very hard in her position behind the scenes, gathering the news, talking to students, and basically keeping everything in the office running smoothly. Having me as their editor has also given them added responsibilities. They

have strived hard to keep me organized, tightening the reins on my emotions when they were hampering my ability to think rationally, and when need be they have even occasionally been forced to muzzle me when I succumbed to my emotions. Most of all they have held up well under my occasional moments of impatience, my arrogance, and my frequent tendencies to be quite demanding.

Jean Marki will be transferring to Clarion Campus in the fall and therefore will not be serving on the BULLETIN staff. DeWayne will be stepping down as Assistant Editor and assuming a roll in a voluntary capacity.

Thanks guys.

Your Captain

M.A. VASHINSKI, EDITOR

### EDITOR'S NOTE

It has been a great honor for me to serve as Editor of the BULLETIN this semester. I would like to thank the students, faculty, and staff of Venango Campus for all their support. Also special recognition goes out to the Student Senate for performing so well under pressure applied by the staff of the BULLETIN.

This will be the last edition of the BULLETIN for this semester. I'd like to wish everybody the best of luck on their finals and the best of summers. Incidentally, if any member of the student body, faculty or staff would feel the need to submit articles for publication in the first issue of the BULLETIN of next semester, the deadline is Wednesday, August 21, 1991 at

noon. This deadline will be strictly enforced. No exceptions.

### STUDENT IN NEED

One of the members of the Venango Campus family is currently experiencing hard times. She and her children have recently been forced to change residence. Though she has found a place to live, she must furnish the new home from scratch. She is in need of a wide variety of household items, including the following: Small kitchen appliances (toaster, mixer, etc.), dishes, silverware, drinking glasses, dish towels, dish rags, pots and pans, and cooking utensils; Furniture, including table and chairs, living room furniture, end tables, lamps, and dressers. Other items needed are: bedding (sheets, blankets, pillows), bath towels and wash clothes, shower curtain, vacuum cleaner, and a clock.

One of our sisters is in need, so lets look in our garages basements, and attics for items that are currently collecting dust and see if we can't help her get back on her feet. To those who have already donated, the items you have given are greatly appreciated.

### COOLIDGE CREED

I believe in work, for discontent and labor are not often companions.

I believe in thrift, for to store up a little regularly is to store up character as well.

I believe in simple living, for simplicity means health and health means happiness.

I believe in loyalty, for if I am not true to others, I cannot be true to myself.

I believe in holding up my chin, for self-respect commands respect from others.

I believe in bracing up my brother, for an encouraging word may save the day for him.

I believe in living up to the best that is in me, for to lower the standard is to give up the fight.

--Calvin Coolidge

## HERE'S A STORY!

Ten TOTAL members attended a storytelling workshop on Saturday, April 20. Upon their return, TOTAL donated an audio cassette to the library, "Storytelling with Sly Fox." Anyone interested in the art of storytelling should be sure to listen to it.

TUTORING IS AVAILABLE in room 210 Montgomery Hall. The tutoring schedule will be changed for finals week--hours will be posted.

# OH, THOSE CONFUSING LABELS! --by Laurie Black

What do they mean when they write "EARTH FRIENDLY" on a package? What does "OZONE FRIENDLY" or "BIODEGRADABLE" really mean?

With the increasing environmental awareness that has been going on over the past decade, more consumers today are being selective in the products that they buy. Manufacturers and suppliers are quick to catch on to the latest consumer trend. Many manufacturers have created new terminology that has added to the environmentally conscience consumer's woes when buying at the store. Labels such as "organic," "biodegradable," "recyclable," and "made from recycled material" often lure a shopper into buying a product that may be hazardous to the environment.

Legislature, both on the national and state level, is being introduced in order to clear up the confusion with the labels that manufacturers are using today. The proposed bill(s) that are being introduced want to regulate and define the labels being used on packaging. In order to clear up some confusion, the following is a list of commonly used terms.

**BIODEGRADABLE:** Under special circumstance, the materials that make up the product will, with time, break down into their original components. This doesn't mean that the product is safe to the environment. (Many toxic chemicals will break down with time.)

**DEGRADABLE:** Generally, used to mean the same as biodegradable. Degradable products will break down with time.

**PHOTODEGRADABLE:** Products that are photodegradable require light (sunlight) in the decomposition process. Often, products thrown out in the weekly trash are sent to the land fill and are buried. The photodegradable qualities are then useless.

**RECYCLED:** This label can

mean that the product intended for use is made from recycled material or it can mean that the packaging is made from recycled material. To tell is a package is made from recycled paper, the cardboard will have a grayish cast.

**RECYCLABLE:** Again, this label can refer to the packaging or the product intended for use or both. Check with your local recycling center to see if they will accept the materials that the product is made of. Many consumers are disappointed when they buy a product that isn't accepted by their local recycling centers, garbage collectors, or landfill.

**EARTH FRIENDLY:** This is a new label that makes the consumer feel good that they're buying some manufacturer's product. What it means exactly isn't known to the recognized organizations that monitor manufacturing and product distribution. The implication is that the product or the packaging won't hurt the environment. Again, it says little of the manufacturing processes or the safe disposal of the product or its packaging.

**OZONE FRIENDLY:** With the ban of products that contained fluorocarbons, anything that was manufactured in a "pump" spray bottle was considered "ozone friendly." Be sure that the chemicals used are "friendly to the environment." Products that have been found to be hazardous to the air environment are hydrocarbon products (or products that are manufactured from crude oil or natural gas) and are found in most organic solvents.

**ORGANIC:** This is a term that has opened a can of worms! Organic is probably the most misleading and dangerous term used by manufacturers today. The manufacturer's definition of organic can mean anything that comes from the earth. Don't be fooled by this label. Under this definition,

known toxins such as RADON, can be considered "organic."

The next time you're out shopping be aware of what you're buying. What is on the label may not be the exact truth. Do your homework and find out what products are good or bad for the environment. If you have any questions, call or write to the manufacturer to clear up any questions about the products you may be using. Local recycling centers and agriculture extension offices, listed in the local phone directory, are also good sources of information about environmental concerns.

## THE PA COAT OF ARMS

The Pennsylvania Coat of Arms was seldom used until after the Declaration of Independence when the State Coat of Arms appeared on the state paper money issued in 1777. In 1778, Caleb Lowmyer of Philadelphia prepared a coat of arms, heraldic in design, with the shield and crest similar to the shield and crest of the Seal of the State of Pennsylvania; the supporters for the shield and crest were two black horses, harnessed for drawing a vehicle, rearing on their hind legs, and facing each other on either side of the shield. Behind each horse was a stalk of corn; below the shield a cornstalk and an olive branch were crossed; and across the base of the coat of arms was looped a streamer bearing the state's motto: "Virtue, Liberty, and Independence." In 1874, the General Assembly approved a commission to prescribe one official coat of arms for the State of Pennsylvania. In 1875, this commission reported to the General Assembly the coat of arms with the heraldic design.
